

Rent IT Product Specification

Digi Etherlite 160

16 RS232 Ports
10/100 Ethernet Network
Native COM Ports under Windows

Description

The network serial concentrator adds 16 RS232 serial ports to an Ethernet network, enabling broadcast of serial data over the network to a number of connected PCs. A Single TCP/IP session services the traffic from all ports resulting in less overhead at the host and less traffic over the network. The Etherlite 160 ports appear as native COM ports under Microsoft Windows with full control of individual serial ports.

Specifications

Number of Ports	16 RS232 ports with built in transient voltage suppression
RS232 speed	Up to 115Kbps on all ports simultaneously
Serial Port Connection	25 way D type connector via RJ45 cables
Network	10/100 ethernet RJ45, supports DHCP for easy IP address configuration
Environmental	10 - 40 degrees C, 5 -90% relative humidity
Power Requirements	110 - 240 VAC 50/60Hz 25 watts max
Dimensions	29 x 14 x 3 cm
Weight	1.4 Kg
